## About

The Year 11 Geography Class went to Brewongle and participated in the 'Checking the Pulse' program. They used kayaks to collect data about the water and investigate the different types of plankton found. Overall, it was a fantastic opportunity to be involved and participate in practical geography fieldwork.

# Year 10 Collaroy/ Narrabeen Excursion

TPHS · 2023

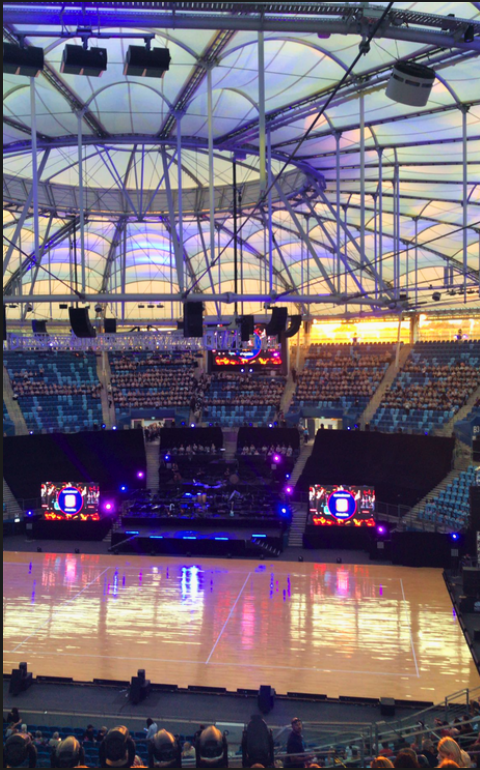

Last week, Year 10 went on an excursion to Collaroy and Narrabeen Beach to observe the multiple geographical processes occurring near the coast. The students learned about coastal erosion, the effects of it, and methods of prevention. They were accompanied by teachers from the Coastal Environment Center Narrabeen who explained the features of coastal areas in great detail, as well as educating them about the harmful effects of development and urbanization near and on the beach. Overall, the Coastal Environmental Change and Management excursion was incredibly intriguing and provided a lot of insight into managing the geographical processes that occur around us. Despite a light sprinkle and powerful gusts of wind the Year 10 cohort thoroughly enjoyed the valuable experience.

## Q Pulse Alive 2023

Pulse Alive is a large-scale event featuring performances from a range of students from public schools across NSW. The night featured a variety of creative routines including dances, choirs, a marching band, a drama act, and acrobatics. These dazzling performances happened over the course of two thrilling nights.

This year the event featured songs from Australian artists including a first nation performance.

On Friday 10th of March, at the Sydney Olympic Park Tennis Arena, The Ponds High School performed fantastically in both their performances in 'Youngblood' and 'Mad House', as well as the finale. Congratulations!

Overall the night was a fantastic experience and a great opportunity for students across different age groups to express themselves and showcase their skills in the area of arts and creativity.
