### Course Fees Information

The Ponds High School request that parents pay course fees. These fees are essential to enhance the educational, cultural, and sporting programs for students from Years 7 – 12, which cover the purchase of:

1. Teaching resources
2. Equipment, consumables e.g., food, paint, first aid training resources, etc., sporting equipment, musical instruments, tools, and maintenance of machinery
3. Booklets

Course fees are charged for Stage 6 subjects that require the purchase of the materials as listed above.

Courses with compulsory fees are clearly indicated in the Stage 6 booklet and should be considered when selecting subjects for Years 11 and 12. Students have fee free course options that are also clearly indicated in this booklet.

Failure to pay these fees is unfair to other students, places a strain on the school budget, and threatens the existence of that subject. For example, a Food Technology course cannot run if we do not have the funds to purchase food for that practical lesson. Additionally, failure to pay course fees may result in students being unable to participate in non-compulsory school activities such as the Year 12 Formal.

If a student chooses to change courses, they must see the Stage 6 Head Teacher to discuss any fee changes, and a form will need to be signed by parents to advise they are aware of this change. Payment options and plans can be arranged by contacting the Finance Team in the front office. In the case of financial hardship, parents must discuss obtaining a 'Student Assistant Fund Application' from the Student Administration Manager. Families will receive Stage 6 invoices upon finalisation of the class and course lists.
